

# cumulative index 1993–2010

## welcome

Welcome to this cumulative index of Reproductive Health Matters from 1993 through 2010, including the journal, journal supplements and two books, a publications list and a list of keywords.

The index has three sections:

- Author
- Subject
- Country/region.

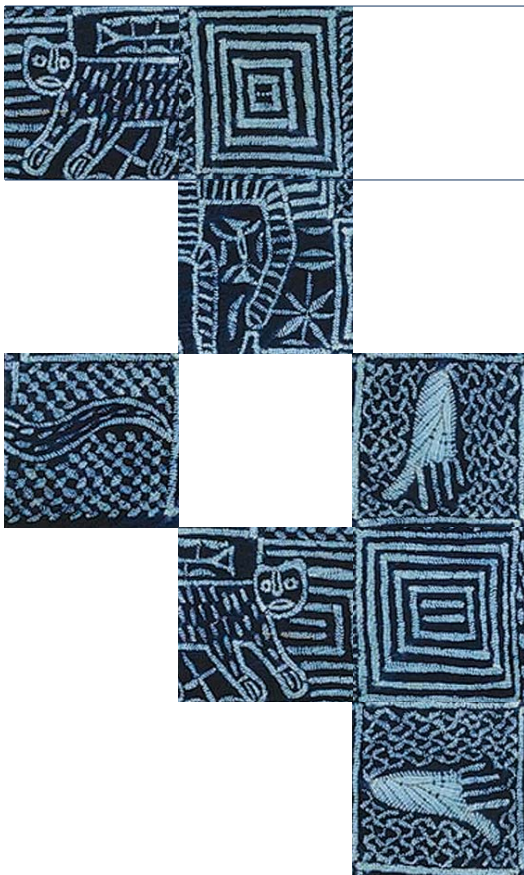

Index compiled by Juliet Richters, Amy Kapczynski, Rosa Tunberg, and Pathika Martin with thanks.

# cumulative index 1993–2010

## contents

---

- **Publications list 1993–2010**
- **Author index** – All original authored papers are listed here. Citations are alphabetical by surname of first author. All co-authors are also listed independently, with cross-reference to the first author for the citation.
- **Subject index** – The subject index is based on the keywords found in each original article or assigned to that article if it had no keywords, e.g. editorials, articles in the early volumes, RHM's two books and the Round-Up summaries. Citations are alphabetical by surname of first author. Round-Up summaries are listed alphabetically by title.
- **Country/region index** – The country/region index contains only those items which refer to specific countries and/or regions. Citations are listed under a region if they refer to at least three countries in that region. Citations are alphabetical by surname of first author. Round-Up summaries are listed alphabetically by title.
- **Keywords** – This is a list of all the keywords in the subject index. It will be updated on [www.rhmjournal.org.uk](http://www.rhmjournal.org.uk) twice yearly.
