 community-based distribution see family planning services

community-based programmes and interventions
 condoms
 100% condom use programmes see condoms
 confidentiality, medical
 conflict and crisis settings
 consent, informed
 contraception
 contraception and unplanned/unwanted pregnancy
 contraception, barrier methods
 contraception, emergency
 contraception, hormonal methods
 contraception, immunological/vaccine
 contraception, implants
 contraception, injectables
 contraception, intrauterine
 contraception, male methods
 contraception, natural methods
 contraception, oral
 contraception, patch
 cosmetic surgery
 counselling
 criminal justice system
 criminalisation
 Cytotec (misoprostol) see abortion methods

d

Dalkon Shield see contraception, intrauterine
 decentralisation of services
 delivery care see childbirth; provider-patient relations; midwifery
 de-medicalisation see health policy and programmes
 demography see fertility; population policy
 Depo Provera (depot medroxyprogesterone acetate) see contraception, injectables
 development assistance see health policy and programmes
 devolution see health policy and programmes
 diaphragms see contraception, barrier methods
 diethylstilboestrol (DES)
 disability
 disability-adjusted life years (DALYs) see global burden of disease
 discrimination
 doctor-patient relations see provider-patient relations
 donors, donor funding/assistance
 donor insemination
 drugs and drug companies
 donor insemination
 dual protection

e

education
 emergency obstetric care
 endometrial cancer
 environment

KEYWORD LIST

episiotomy see childbirth; obstetrician-gynaecologists
equity and access
ethics
ethics committees
ethnicity see race and ethnicity
ethnography
evidence-based medicine

f

family planning see contraception; sterilisation
family planning services
family size preference
family structure
fatherhood see men
female condom see condoms

 microbicides
 mid-level providers
 midwifery
 mifepristone
 migration
 Millennium Development Goals
 miscarriage
 misogyny see discrimination
 misoprostol see *also* abortion methods
 motherhood

n

negligence, medical
 nevirapine see drugs and drug companies; HIV transmission, pregnancy-related
 non-governmental organisations (NGOs)
 Norplant see contraception, implants
 nurse-midwives see mid-level providers
 nurse practitioners see mid-level providers

o

obstetrician-gynaecologists
 older women
 orphans
 out of pocket health expenditure/payments for health care see health care financing
 ovarian cancer

p

pain and pain management
 Pap smears see cervical cancer and screening
 parenting
 partner notification
 partnership formation
 peer education
 pelvic inflammatory disease see sexually transmitted diseases and services
 periodic abstinence see contraception, natural methods
 personal histories
 pharmacies
 physician assistants see mid-level providers
 physician knowledge/attitudes/practice see provider-patient relations
 pill, contraceptive see contraceptives, oral
 pleasure see sexual pleasure; sexual relationships
 population policy
 post-abortion care
 post-coital contraception see contraception, emergency
 post-exposure prophylaxis see HIV/AIDS; sexual violence and abuse
 post-partum period
 poverty
 pregnancy
 pregnancy, unplanned/unwanted
 presumptive treatment see sexually transmitted diseases
 pre-term delivery
 primary health care and services
 priority setting see health policies and programmes
 privatisation of health services
 prostaglandins see abortion methods
 prostitution see sex workers
 provider-patient relations
 psychosocial issues see mental health
 public opinion survey see research methodology

q

quality of care
 quinacrine see sterilisation, quinacrine

r

race and ethnicity
 rape see sexual violence and abuse
 raquidea
 referral, see health policy and programmes
 refugees and internally displaced persons
 religion
 reproductive and sexual health
 reproductive health policy and programmes
 reproductive health services
 reproductive health surveys

KEYWORD LIST

reproductive histories
reproductive morbidity see maternal mortality and morbidity; gynaecological morbidity
reproductive rights
reproductive tourism see reproductive health services
reproductive tract infection
research methodology
risk assessment
Roman Catholic Church

safe motherhood
safer sex promotion
sanitary protection
scaling up of services
sector-wide approaches (SWAPs) see health policy and programmes; reproductive health policy and programmes
self help
serodiscordance
sex determination and selection
sex education see sexuality education
sex ratio at birth see sex determination and selection
sex workers
sexology
sexual behaviour and practices
sexual coercion see sexual violence and abuse
sexual dysfunction
sexual harassment
sexual health
sexual minorities
sexual networking
sexual pleasure
sexual relationships
sexual rights
sexual torture see sexual violence and abuse
sexual violence and abuse
sexuality
sexuality education
sexuality research see research methodology
sexually transmitted diseases/infections and services
single parenthood see motherhood; parenting
skilled attendance at birth see childbirth; midwifery
social determinants
social marketing
social network
social policy
socio-economic status
sperm/semen
spermicides see contraception, barrier methods; microbicides
sterilisation, female
sterilisation, male
sterilisation, quinacrine
stigma
stillbirth
strategic approach

surrogate motherhood
syphilis see sexually transmitted diseases

t

tamoxifen see breast cancer and screening
task shifting
toxicology
traditional birth attendants see midwifery
training of service providers
trafficking in women/children see law and policy
training of trainers see training of service providers
transgender see lesbian, gay, bisexual and transgender issues; sexuality
treatment-seeking behaviour

u

ultrasound see antenatal care; antenatal screening
unmet need/s see reproductive health policy and programmes
urinary incontinence
user fees see health care financing
users' perspectives
uterine cancer see endometrial cancer

v

vaginal practices, cleansing and drying agents
vaginal ring
vasectomy see sterilisation, male
verbal autopsy see research methodology
Viagra see sexual dysfunction
violence against women
violence, political/ethnic/religious/communal

w

widowhood see marital status and marriage
withdrawal see contraception, male methods
women's empowerment see women's status
women's health
